the road. To insure proper use of this helmet, familiarize yourself with its features, fit and care by carefullyreading through this manual before wearing your new helmet

# Protection and Ventilation

The outershell allows the helmet to be rated one of the lightest helmets while providing excellent durability and integrity. The multiple vents with inner air channels draw the air throught the helmet and over the brow for maximum cooling-

# Pad Fitting

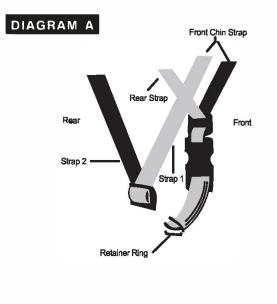

The helmet must fit properly to be effective. With a proper fit, the helmet will not move backand forth or side to side while fastened. If the helmet does not fit with installed pads, simply remove them and install a different size pad. To insure the proper fit, mix and match the pad thickness to best conform to your head shape

#### Retention System

This Bicycle - Sports Safety Helmet uses a quickrelease buckle that is simple and can be buckled and unbuckled without changing the adjustment The straps must be snugly and evenly tensioned Place the helmet firmly on your head and fasten the buckle.

after removing the helmet-

The Bicycle - Sports Safety Helmet you have just To tighten the chin strap, hold the buckle with one purchased provides protection, whether on or off hand. Then pull the excess strap in through. (See Diagram A)

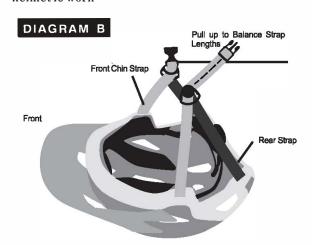

To tighten the rear strap, pull excess from the rear of strap 2. Hold the helmet with one hand. With the other hand, hold the strap where they pass under your chin. Then pull from side to side to bab ance the length of all four straps. (See Diagram B)

The helmet must sit firmly and level on your head-(See Diagram C) To lower the front of the helmet to cover your forehead, tighten the chin strap and loosen the rear strap. To raise the front, loosen the chin strap and tighten the rear strap

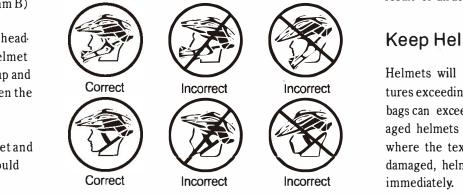

To check for proper tension, put on the helmet and Notice which strap is loose. Tighten the loose strap fasten the buckle. Open your mouth. You should feel the strap pulling against your chin

Then attempt to pull the helmet off the front or rear. If the helmet comes off, increase strap tension and examine if thick enough pads are being used. The helmet should not be able to roll forward or backward excessively. It should not be possible to remove the helmet without unfastening the buckle.

NOTE: Please check adjustment every time this helmet is worn

# DIAGRAM C

# Final Check

The important thing to remember is that the helmet fits snugly. If you can tilt it forward or backward you need to tighten the strap adjustment-The straps should be positioned that they do not cover the ears and that the buckle is away from the jaw when correctly fitted.

Buyer should always try different sizes and choose the size which feel secure and comfortable on the head

It is important for the helmet to fit snugly on your ride with extreme caution and be sure to read head and must be fastened to provide maximum manual thoroughly. protection.

All adjustments should be checked each time the helmet is worn, making sure it fits snugly at all times.

# Caring for Your Helmet

Clean the headgear with mild soap and water only The use of any solvents, paints or decals can cause damage to the helmet and make it ineffective in the result of an accident-

#### Keep Helmet Out of Extreme Heat

Helmets will be damaged if exposed to temperatures exceeding 150° F. Dark vehicles and storage bags can exceed this on very hot days. Heat damaged helmets will have random disfigured areas where the texture appears bubbly and uneven. If (EU) 2016/425. It has passed EN1078:2012+A1:20 damaged, helmets should be destroyed and replaced

### Important Information
